

THE CREATIVITY BUILDER

Did you know that you can train your brain to become more creative? The more you practice thinking creatively, the more creative you become.

This fun activity involves trying to think of as many uses for different objects as you can. All uses should make sense but the more unusual your ideas the better. Pick two everyday objects from around the home and write them in the spaces provided below. Then write out as many different uses as you can think of.

For example: other uses for an umbrella could be a snooker cue, a sun shade or even a golf club and some other uses for toothpicks could be mini javelins or a pair of stilts for a mouse!
